

*Il Presidente
del Consiglio Nazionale
dell' Economia e del Lavoro*

Dear President Baciú,

I wish to express to you on behalf of the entire Italian National Council for Economics and Labour, my heartfelt thanks for your commitment to promoting social dialogue and for the activities supported during your mandate.

Our Institutions - the national ESCs - remain the only ones capable of representing civil society organizations with one voice. The work of our Councils must and can try to be far-reaching in terms of influence on political decisions, especially in Europe, because despite the work done so far, the EU needs a common strategic vision, efficient governance mechanisms and a clear social dimension.

For these reasons, together with my thanks, I wish you the continuation of your activity as a member of the Romanian Economic and Social Council.

Yours faithfully.

Tiziano Treu
